SUPPLEMENTARY INFORMATION:

Southern LNG requests a short-term blanket authorization to export LNG from the Elba Island Terminal located on Elba Island, Chatham County, Georgia, to any country with the capacity to import LNG via ocean-going carrier and with which trade is not prohibited by U.S. law or policy. This includes both countries with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas (FTA countries) and all other countries (non-FTA countries). This Notice applies only to the portion of the Application requesting authority to export LNG to non-FTA countries pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a). Southern LNG states that its existing blanket export authorization, set forth in DOE/FE Order No. 4206, is scheduled to expire on March 31, 2021. Southern LNG requests that the authorization commence on the earlier of either the date when all Movable Modular

Liquefaction System units associated with the Elba Liquefaction Project have been placed in service on April 1, 2021. Southern LNG is not seeking authorization to export any domestically produced natural gas or LNG.

Southern LNG requests this authorization on its own behalf and as agent for other parties who hold title to the LNG at the time of export. Additional details can be found in Southern LNG's Application, posted on the DOE/FE website at:

<https://www.energy.gov/sites/prod/files/2020/08/f77/20-99-LNG.pdf>.

DOE/FE Evaluation

In reviewing Southern LNG's Application, DOE will consider any issues required by law or policy. DOE will consider domestic need for the gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. Parties that may oppose this application should comment in their responses on these issues.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its NEPA responsibilities.
